Easy-to-use GRN Receiving

Processing GRNs has never been so easy with Swift Solutions GRN module.

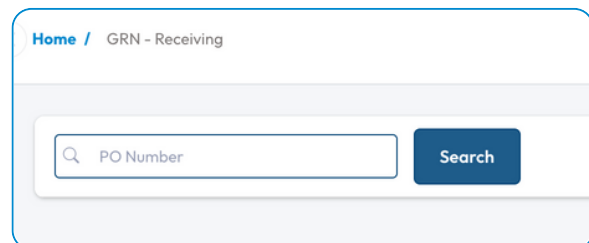

Built for SYSPRO: Swift GRN to Streamline, Control, and Move Faster

SYSPRO is the powerhouse driving your operations, and now, with the **Swift GRN Module**, receiving stock is even faster, more controlled, and easier than ever.

As a fully integrated **SYSPRO** SaaS peripheral, under the **Swift Solutions** umbrella, our GRN Module works seamlessly alongside SYSPRO, to add intuitive controls, clear visibility, and a user-friendly interface, helping your operational processes flow effortlessly.

GRN processing can be done via PC or a **handheld** scanner device

Running multiple companies in your SYSPRO ERP?

Now you can switch between them instantly, all inside one seamless Swift SaaS ecosystem.

- ✓ No logging out.
- ✓ No duplicate sessions.
- ✓ Just one click to move between
Company 1, Company 2... and beyond.

Insightful Dashboards

Swift Dashboard give key information, in real-time, anytime, anywhere, from your PC or mobile phone.

Our Solution

After more than a **decade** of building **innovative** software and **smart ERP peripherals**, we're taking things up a level. We are super excited to be launching **Swift Solutions** which has been built specifically for **SYSPRO** customers to control and manage purchase order processing and suppliers.

We have had great success with building bespoke solutions for our **SYSPRO** clients and evolved to turn this into a SaaS solution to cater for all **SYSPRO** customers. Purchase orders can be a big risk factor in any business if not managed in a controlled environment, Swift Solutions gives Owners / Managers of the business comfort that purchase order requisitions are going out in a controlled manner with out Policy Approval setup.
